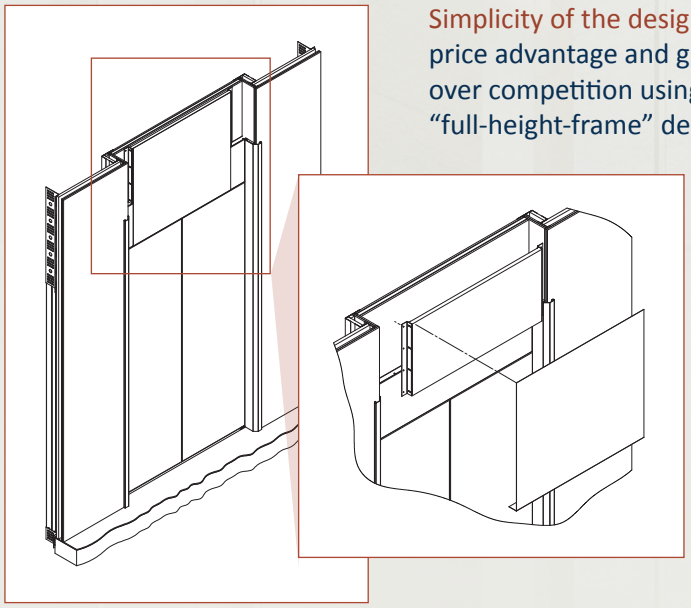
H&B Elevators

THE WORLD'S FIRST FIRE-RATED INFINITE HEIGHT FLUSH TRANSOM

H&B Elevators

INFINITY TRANSOM Hoistway Entrances™

Provide your customer with a UL Tested, approved and labeled 90-minute rated flush transom of ANY HEIGHT.



Simplicity of the design allows for a significant price advantage and gives you a pricing edge over competition using the outdated "full-height-frame" design.

Even better, patent pending Infinity Transom Hoistway Entrances™ install almost exactly the same as a standard entrance and the installation can be done by your regular installation crew — without special rigging or hoisting equipment.*

*Depending on your customer's final design.

Call your H&B Sales representative for details and application methods!

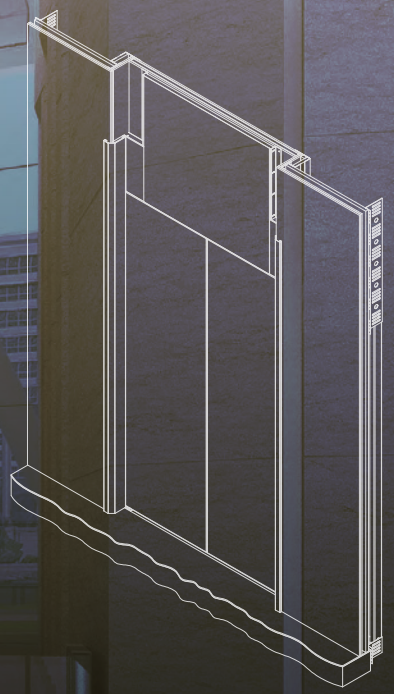
H&B Elevators

60 foot flush transom?

We can do that.

H&B Elevators Infinity Transom Hoistway Entrances™ offer you:

- **UNLIMITED** flush transom height.
- **EASY INSTALLATION** without extra labor or rigging.*
- **90 MINUTE UL LABELED ENTRANCES.** No hassles with certificates. Meets specs every time!
- **LOWER COST** than traditional flush transom entrances.
- **LESS RISK** by giving you a way to transfer handling and installation of specialty finished materials to other trades.
- **MULTIPLE FINISH OPTIONS:** Stainless, Bronze, Powder-coat, Rimex, Forms & Surfaces and more.



*Depending on your customer's final design.
